kyndryl / **Google** Cloud

Kyndryl services for migration to Google Cloud Platform

Highlights

– Accelerate your IT modernization journey

– Automate personalization and predictive actions to reduce risk

– Improve business outcomes with data management and AI

Introduction

Migrating workloads to cloud is a strategic imperative to enable personalized experiences for customers, and the pandemic has both accelerated and underscored this urgent need. But cloud migration is a still challenge for many organizations, with growing complexity across the hybrid, multicloud IT estate and more than 40%[1] of IT leaders reporting a lack of internal skills to plan and execute migration — or even select the right cloud platform.

Description

Kyndryl and Google Cloud have embarked on a global, strategic partnership to accelerate digital transformation and help enterprises around the world become more advanced, data-driven, and sustainable. Together, we are focusing on customer solutions for data modernization and governance, AI-driven innovation, cybersecurity and resiliency, and transformation of mission-critical workloads to the cloud.

Accelerate your IT modernization journey

Our innovative, expert team of certified Google Cloud Platform professionals can help speed IT modernization, with advisory, implementation, and managed services for complex, hybrid IT environments.

– **Accelerate** digital transformation and rapidly deploy available and emerging technologies.
– **Integrate** workloads across public, private and multi-cloud environments.
– **Manage** your environment with intelligent monitoring and proactive management.

We'll work side by side with you to get a clear picture of your IT landscape and create a detailed, prescriptive migration plan to help simplify and accelerate your path to success.

Improve business outcomes with data management and AI

Our enterprise services for applications, data, and AI can help improve IT outcomes through a combination of data management and AI-infused operations.

– **Seamless migration** with end-to-end program management.
– **Rapid implementation** to accelerate production readiness.
– **Multicloud support** for applications across Google Cloud Platform, Amazon Web Services (AWS), Microsoft Azure, Oracle Cloud Infrastructure (OCI), and IBM Cloud.

Why Kyndryl?

Kyndryl has deep expertise in designing, running, and managing the most modern, efficient, and reliable technology infrastructure that the world depends on every day. We are deeply committed to advancing the critical infrastructure that powers human progress. We're building on our foundation of excellence by creating systems in new ways: bringing in the right partners, investing in our business, and working side by side with our clients to unlock potential.
